bauma Innovation Award 2022 Beaming winners at the awards ceremony

Eagerly awaited, the secret about this year's award winners was revealed on Sunday at the Munich Residence.

Frankfurt am Main, 23 October 2022 – For the thirteenth time, numerous companies and institutes from Germany and abroad competed for the award in five categories at the world's leading trade fair bauma in Munich. After a multi-stage selection process, five lucky winners were able to receive their prizes on Sunday in the Max Joseph Hall of the Munich Residence.

They are in the categories

- climate protection: Liebherr France SAS with its hydrogen-powered excavator,
- digitalisation: MiC 4.0 Machines in Construction with one common digital language for construction sites,
- mechanical engineering: Herrenknecht AG with its continuous advance,
- construction: Holcim (Germany) GmbH with CPC – Carbon Pre-stressed Concrete
- research: Freiberg University of Mining and Technology Mechanical Engineering Institute with Deep Sea Sampling.

Press information of the winners and all nominees as well as videos of the innovations are available via the link www.bauma-innovationspreis.de.

A total of 133 entries were received, of which 41 finalists made it to the next round. In two rounds of voting, the expert jury and task force chose their favourites. The trade journalists attending the bauma Media Dialog in Munich also had the opportunity to cast their vote in the final round.

The competition is a joint project under the auspices of the VDMA Construction – Equipment and Plant Engineering, Messe München, the Federation of the German Construction Industry (HDB), the German Construction Confederation (ZDB) and the German Building Materials Association (bbs).

Do you have any questions? Martina Scherbel, Consultant Press and Public Relations, Phone 069 6603 1257, martina.scherbel@vdma.org, will be happy to answer them.

The VDMA represents around 3,500 German and European mechanical and plant engineering companies. The industry stands for innovation, export orientation and medium-sized businesses. The companies employ around four million people in Europe, more than one million of them in Germany alone. Mechanical and plant engineering represents a European turnover volume of around 800 billion euros. In the entire manufacturing sector, it contributes the highest share to the European gross domestic product with a value added of around 270 billion euros.
