Except for category 4, all innovations must be exhibited at bauma 2022.

**The online application form must be completed in full in German or English.
The following conditions must be met:**

- ... Short title (max. 30 characters incl. spaces)
- ... Short description of the innovation (max. 500 characters incl. spaces) Short and concise summary. What is new? What is the benefit?
- ... More detailed description of the innovation (max. 3500 characters incl. spaces):
Explanation of the forward-looking significance of the innovation for practical use. What additional benefits does the innovation offer to customers and users? Who benefits from it? What are the advantages for the practice? What does the innovation achieve in terms of economic efficiency, increased performance, energy and resource efficiency, environmental protection, humanisation of the workplace?
- ... At least one, maximum three printable photos in jpg format (specifications: Size 13 x 10, min. 300 dpi, max. 1.2 MB per image, file name: company_name_category_short_title.jpg).

Please make sure that the short description and the more detailed description are comprehensible to non-experts.

Deadline for entries: 3 September 2022

bauma Innovation Award 2022

Terms and conditions (2/2)

Entries received after this date will not be considered. Incomplete or incorrectly completed entries may be rejected.

Innovations that have already been shown at other trade fairs or submitted for other awards prior to bauma 2022 are not permitted. A practical application that has already been made is not an obstacle.

Selection procedure

After a formal examination of the applications, the nominees (maximum 3 per category) and the award winners will be determined in a multi-stage selection procedure. The evaluation of the innovations is carried out by a jury of scientists, representatives of the construction industry, the building trade, the building materials industry, the construction machinery and building materials plant industry and trade journalists. The selection criteria are based on the assessment of the future viability and practical relevance of the developments, their economic efficiency and performance enhancement, energy and resource efficiency, environmental protection and humanisation of the workplace as well as the image enhancement of the construction, construction materials and mining machinery industry. Jury members whose companies or institutes participate in the Innovation Award are not entitled to vote in the category or categories concerned.

Conditions for nominees

In the case of a nomination, the nominated company/entrant must also provide the following information:

- ... a press release on the submitted innovation in German and English with press photos and captions
- ... a short film about the innovation, maximum 90 seconds long, which visualises the core message.

The film will be shown around bauma, at the bauma Media Dialogue, in the online media and at the awards ceremony. The companies will receive the exact specifications with the announcement of their nomination.

The nominees will be announced publicly for the first time at the bauma Media Dialogue in January 2022 in Munich. Nominated companies/institutes must attend the bauma Media Dialogue or send a representative who will be available to answer journalists' questions.

The award ceremony will take place on **3 April 2022** during the opening of bauma 2022 in Munich. **Attention: The winners will not be announced until the evening of the awards ceremony.**

The participants grant the organiser of the Innovation Award a transferable right of use to the submitted texts, images and films. This right of use includes publication for public relations purposes and use by representatives of the press. The participants assure that they have the corresponding rights of use to the texts, images and film and can pass them on.
