bauma Innovation Award 2025

Conditions of Participation (2/3)

Care should be taken to ensure that the brief description and the more detailed description are also understandable to the layperson.

Deadline for entries: 23 August 2024

Entries received later will not be considered. Incomplete or incorrectly completed entries may be rejected.

Individual companies and institutes as well as groups or consortia can apply. One (1) prize stele will be awarded per category. In the case of groups and consortia, an external representative must be named in whose name the prize will be presented.

Innovations that have been presented to the public from 2022 onwards or have not yet been published are eligible.

By submitting their entries, entrants confirm that they fulfil the conditions for participation.

Selection procedure

After a formal review of the applications, the nominees (maximum 3 per category) and the award winners are determined in a multi-stage selection process. The evaluation of the innovations is carried out by a jury consisting of scientists, representatives of the construction industry, the building trade, the building materials industry, the construction machinery and building materials plant industry and trade journalists. The selection criteria are based on the assessment of the future viability and practical relevance of the developments, their economic efficiency and performance enhancement, energy and resource efficiency, environmental protection, and humanisation of the workplace as well as the image enhancement of the construction, construction materials and mining machinery industry. Jury members whose companies or institutes participate in the Innovation Award are not entitled to vote in the category or categories concerned.

Conditions for nominees

In the case of a nomination, the nominated company must additionally provide the following information:

- a press release on the submitted innovation in German and English with press photos and captions,
- a short film about the innovation, maximum 90 seconds long, which visualises the core message.

The film will be shown around bauma, in the online media and at the awards ceremony. The companies will receive the exact specifications with the announcement of their nomination.

bauma Innovation Award 2025
